

I am deeply disturbed by the Pappas Telecasting Group's intentions to give Repulicans \$325,000 of advertising time and a considerably lesser amount to Democratic candidates.

Pappas is abusing public airwaves and not abiding by the conditions of their FCC license which requires them to give equal time to all political parties.

This example is a good reason to reconsider so many local tv and radio stations being owned by a large group or corporation. These large media companies need closer monitoring by the FCC especially in this election year.
